# A MESSAGE FROM UNITED WAY'S BOARD CHAIR

“Alone we can do so little,  
together we can do so much.”  
~ Helen Keller

**UNITED WAY** exists to change lives together and lift the community, because through our collective power we can do more than each of us can do alone.

After being a United Way donor for 26 years, a past campaign chair and board member for four years, it is an honor to serve as this year's board chair.

We ask each board member to discover his/her passion and explore why they are involved with United Way – we call it their “why”. My “why” starts with my brother-in-law, Robby. Developmentally disabled and an epileptic, Robby was blessed to be accepted into a special job training program where he learned basic job skills which have allowed him to experience the pride of accomplishment. This program provided purpose to Robby's life by giving him the skills he needed to secure employment and independence. This is the kind of program that United Way, through your contributions, funds each day.

A donation to United Way is among the most effective contributions you can make because it multiplies the value of your contribution – every dollar United Way invests in agency programs leverages \$8 in government and foundation grants. United Way also does what no single donor or entity could do alone – we convene resources and expertise to implement community solutions. The oversight that we provide ensures that your donations achieve measurable, transformational change.

Please take a few moments to read about the good news in this report. If you already are a United Way donor or volunteer, we thank for your generous support. By all key metrics, it was a successful year – the most funds ever raised in the annual campaign and continued low operating costs.

Our goals are lofty, but the results are worth it – a community where our children are better educated and healthier, families are stronger and safer, no one goes to bed hungry and everyone like Robby has the opportunity to reach his/her potential.

There's still a lot of work to be done. We need your ideas and your passion, your creativity, enthusiasm and support. We need your time, talents, voices and treasures. It starts with recognizing that we're all in this together. And then acting on that knowledge.

*Amy Albury*

The historic Golden Gate building will be transformed into a vibrant community center that will offer online library services and on-site educational and vocational learning opportunities. Opening is scheduled for early 2016.
